BRAIN ACCESS THERAPY WITH HYPNOSIS: BEGINNING STRATEGIES FOR DISSOLVING TRAUMA, ANXIETY, FEAR, PANIC, ANGER, PTSD AND MORE

www.lauradelledonne.com

**2-day Event
Tampa, FL
October 23&24 2015
14 CEU's**

About this Training

I am excited to announce a new training for therapists interested in how to access and engage the brain's natural processes to reduce or dissolve emotional distress for their clients.

Learn to use techniques such as: **Age Regression Hypnosis, Rational Hypnotherapy and the Library Brain, Generalized Scanning, Imagery for relaxing the conscious brain, Hypnosis Inductions, NLP Anchoring and Hypnosis and basic Rapid Resolution skills!**

Together these techniques enable you to get to the ROOT of the problem for your clients quickly and peacefully.

More importantly, you will gain a greater understanding of the brain and how to access the inner mind, how it stores info like a computer, scans for retrieval, and categorizes experiences together like a library for learning purposes, and how to access and retrieve this data for therapeutic purposes. Also, learn to identify the initializing events that create disturbed emotions.

MORE:

**Step By Step Coaching and Instruction
Break-Out Practice Sessions
Scripts and Inductions
Guided Imagery
Meditation CD
Instruction Manual**

Quick Course Reference

OBJECTIVE: *Learn Innovative Brain Techniques with Hypnosis that enable you to access the mind in a deeper more effective way for your clients.
